The high school work was discontinued at the end of the school year, principally because nearly all of the pupils graduated or left to attend school elsewhere. Because of the neglect necessitated in grade work by having ten grades in the school for two teachers, we have organized the grades on a more extensive plan, aiming at a better preparation of the pupils. When there are sufficient pupils to warrant continuing the high school work and providing teachers and equipment for the same, this matter should receive your consideration. There will be a class of six or seven next year who can take the first year of high school under the present arrangement. We believe it advisable not to do more than that without another teacher and even this would not be advisable unless, as at present, there is a grade lacking in the classification of the pupils.

We now have at the village teachers who are making the work alive, and teaching the cultural subjects as well as the fundamentals. The work in drawing and music should be appreciated. With present conditions continuing we hope to correct most of the troubles in a year or two, and have as good schools and the pupils as well prepared as they are anywhere in the state.

We can not find much fault this year with any of your schools. The pupils are making excellent progress. The teachers are earnest and well trained. They are working to improve the schools and developing in service.

I have but little to recommend this year in the way of change. We need to keep what we have, and should, if necessary, pay the teachers sufficiently to retain their services.

There should be some effort made to improve the seating and ventilation at the North school. It would be well also to jacket the stove at East village.

It seems unfortunate to have to maintain so small a school on the meadow but there seems to be no other solution of the problem which seems advisable.

We hope for your cooperation in making the schools of Westmoreland efficient and meet the needs of the community.

E. J. BEST,
Superintendent.

WILLIAM E. LAWRENCE,

Agent.

WESTMORELAND FREE LIBRARY.

TRUSTEES' REPORT.

It has been our desire and effort to promote as best we could in accordance to our judgement the prosperity of our library. The measure of our success is indicated in the report of our librarian to which we respectfully invite your studious attention as well as the status of the library itself. To maintain and to increase the interest and consequent patronage thereof it is absolutely necessary to add new books from time to time. In order to do this and pay all necessary expenses appertaining thereto we respectfully ask for an appropriation of one hundred dollars. The resignation of our efficient librarian of the past three years has made it necessary to appoint anew. Miss Ethie Shelley has accepted the position and we confidently expect that she will both merit and receive all due encouragement.

Respectfully,

WILLARD BILL, JR.,

WILFRED G. REED,

ERNEST L. STANFORD,
